## THE ARCHITECTURE

Surrounding the Center's dramatic, eight-story high Grand Court and circular terrazzo floor are 12, 35-foot high masts, each topped with high-resolution LED screens with 12-channel surround sound capability. Featured on the screens is cutting-edge fashion footage from the runways of New York, London, Paris and Milan.

The award-winning "S" shaped design is reminiscent of a conservatory, featuring 60-foot vaulted, end-to-end skylights, and an abundance of natural light and innovative glass and water features. The use of familiar, classical geometric forms is evident in an architectural theme based on the universe, earth, sea and time. Interpreted through exquisite detail, The Mall at Millenia's design includes a sophisticated mix of materials from around the world.
